

IMPORTANT!!!!
AP (LASER) CHECKS PLACEMENT IN A BROTHER PRINTER
TRAINING BULLETIN
October 4, 2006

PROBLEM: How do I load the order checks?

SOLUTION: Determine which tray you will use first.

Manual Feed Tray – order checks ‘FACE UP’ in sequential order (place checks in the manual feed tray face up, top check feeds first, checks in normal order).

Bottom Tray – order checks ‘FACE DOWN’ in reverse sequence (put checks in the tray face down and the numbers in reverse order)
